 Ingredients

- 10 oz strawberry-coconut ice cream (5 large scoops)
- 1 cup strawberries fresh or frozen
- ½ cup International Delight Creamer can substitute milk
- ½ cup fruity miniature marshmallows
- ¼ cup vanilla frosting
- ½ cup assorted sprinkles
- Whipped cream
- Decorative toppings like lollipops, rock candy, wafer cookies, etc

 Directions

- Combine the ice cream, strawberries, and White Chocolate Macadamia International Delight Creamer in a blender, and blend until smooth and creamy.
- Snip the miniature marshmallows in half. Press the cut half of one marshmallow on the inside of a 10-oz glass, pressing firmly so that it sticks. Continue to add marshmallow “polka dots” inside the glass, and repeat with a second cup until both are decorated.
- Spread a thin layer of vanilla frosting around the top rim of each cup. Roll the frosting in sprinkles until the edge of the cup is entirely covered.
- Divide the milkshake between the cups. Top each cup with whipped cream, and add a big pinch of sprinkles to the top of the whipped cream.
- Now for the fun part...decorating! Add fun and colorful decorations like swirled lollipops, rock candy sticks, sour rainbow belts, wafer cookies, and unicorn straws.
- Enjoy immediately.
