JUNETEENTH

Juneteenth is one of the oldest celebrations in the African American History. In 1863, President Abraham Lincoln signed the Emancipation Proclamation, which "freed" African Americans from slavery. However, our ancestors in the southern states had not received the news just yet. It wasn't until two and a half years later in 1865 that General Gordon Granger marched through the city of Galveston, Texas and informed the enslaved Africans of their freedom. Since 1865, The African American Community have fought and won their freedom despite numerous obstacles.
